

Change of Courses During the First Week

Should it be necessary to drop or add a course or change to a different section during the first five days of each fall and spring semester, obtain a Drop/Add form and present it to the Office of the Registrar's. Drop/Add takes place during the first five days of each fall and spring semester, and a proportionate time during the winter and summer sessions. Students need to be aware that dropping or adding a course may have financial aid consequences, and they should consult with the Financial Aid Office before attempting to drop or add.
