

Disney Internship

The Business Division is responsible for coordinating the Walt Disney College Internship Program on campus. This is a six credit semester-long course and students must register for BUS 285. This program is open and available to all students that are in good academic standing and at least 18 years old.

SUNY Adirondack is not responsible for the hiring of student interns but will guide interested students through the application process. Disney-led ZOOM info sessions are held during both Spring and Fall semesters, followed by the opportunity to complete an online application, an interview process. During the Fall Semester, the applications will open for Spring selection and during the Spring semester, the applications will be open for Fall selection. For further information see the Disney Program
